Dear Aniruddha Dalal:

Congratulations! On behalf of the Boston University College of Engineering, I am delighted to offer you admission to the Master of Science degree program in Mechanical Engineering beginning Fall 2024. As one of the top engineering graduate schools in the nation, we are excited to have you join us for your graduate career.

Your offer of admission is evidence of our confidence in your potential and recognition of your academic and personal achievements. We are pleased to inform you that you have been awarded a **College of Engineering Graduate Scholarship**. Please refer to the included letter from Ms. Herman for details about this award. In addition to your tuition scholarship, there are several other sources of financial assistance that may be available to you. These may include on-campus employment opportunities, external fellowships, international student loans, and the Tuition Payment Plan. For more information about these and other financing options, please refer to <https://www.bu.edu/eng/admissions/graduate/financing-your-education/>.

Our Master's program has a rich legacy of serving students wishing to develop deep technical qualifications beyond the bachelor's degree suitable for advanced positions and careers in industry or for continued study towards a doctoral degree. Students in the Master of Science program complete coursework and a practicum. The practicum can be satisfied either via a design project associated with a restricted set of courses or a formal thesis which typically takes a year or more and requires that students secure a faculty thesis advisor. For more information, please find your degree program requirements on our website at www.bu.edu/eng.

Please consider this offer of admission carefully. Boston is a hub of industry and scholarly activity offering a unique blend of cultural, social, and educational opportunities unequalled in American higher education. We invite and sustain a vibrant national and international student population, and believe that a deep appreciation of global and cultural awareness and respect is a critical component of an engineering education. I can assure you with confidence that joining our BU community will further advance your personal and professional goals.

A deposit of \$500 is required to secure your place in the program. You can notify us of your decision and pay your deposit using the Applicant Gateway portal, which can be accessed using the link at the bottom of this letter. You will also be receiving a system generated email that includes the link to directly access the Applicant Gateway.

In order to fully matriculate at Boston University, we require your acceptance of our offer of admission, including payment of your deposit, as well as the requested international student documentation for your I-20. Please see our website: <https://www.bu.edu/eng/admissions/graduate/graduate-admissions/international-students/> for details on required documents. As some students have experienced extended processing time for visas, we encourage you to respond to this offer as soon as possible to prevent delays in processing your I-20, but no later than **May 1, 2024**.

I congratulate you on your personal and professional success to date and on your admission. We hope you choose to continue your education at the Boston University College of Engineering.

Sincerely,

Solomon R. Eisenberg, ScD
Professor of Biomedical Engineering

Notes:

- The term or symbol "Dollars/\$" refers to Australian Dollars.
- The accommodation and living expenses above are based on recent data for 12 months living in independent (i.e. open-market) shared accommodation in Sydney. **All costs are approximate and should be used as a general guide only for a single student.** Your actual costs will depend on things such as your lifestyle and ability to manage your funds. The cost of living is likely to rise from year to year, depending on the general economic circumstances at the time. In addition, some courses may require additional expenses such as uniforms, vaccinations, equipment hire, travel, field trips and specialist software. You will incur extra costs if you have dependants including but not limited to full fees for school aged dependants enrolled in either government or non-government schools.
- You are required to purchase OSHC for yourself and any accompanying dependants for the entire time you are in Australia on a student visa. OSHC is payable upfront as a lump sum for the full length of your stay on a student visa. Medibank is the UTS preferred provider for OSHC but you may purchase OSHC from an authorised provider of your choice. The cost of cover may differ between insurers and the plan you choose. You are responsible for paying any additional charges required by your health insurer to ensure you have health cover while in Australia on a student visa. Please note that you will need to submit evidence of your OSHC arrangements when you lodge your visa application with the Department of Home Affairs. See <http://www.homeaffairs.gov.au/> for more information.
- The quoted SSAF is based on the rate applicable for each Autumn and Spring Session in the year stated and is subject to annual increase. You will be liable to pay the SSAF applicable for each Autumn and Spring Session in which you enrol, however, you will only be charged the SSAF after the census date. UTS reserves the right to vary the method of charging the SSAF.
- Tuition fees are charged on a per-credit-point basis.** The above annual tuition fee assumes you will enrol in a standard 100% Credit Point load for your chosen course, which is normally 24 credit points per Session. Your actual course cost per Session may differ from this figure depending on the course and the number of credit points taken per Session. UTS reserves the right to change the number of Credit Points per Session that constitute a standard 100% Credit Point load.
- Tuition Fees for core subjects within the course or major are quoted for 2024 and are subject to annual increase.** For more information regarding International student tuition fees, please visit <https://www.uts.edu.au/current-students/managing-your-course/fees-and-payment/international-student-tuition-fees>. You must factor in the likelihood of an annual tuition fee increase into your overall budgeting, as well as considering the impact of fluctuating exchange rates if you are using funds from an overseas country.
- The Department of Home Affairs currently requires prospective student visa applicants to be able to demonstrate that they are able to access a minimum of \$24505 a year towards living cost requirements while they are studying in Australia on a student visa.
- Under 18 students who are under a UTS CAAW must reside in UTS approved accommodation. Visit <https://www.uts.edu.au/study/international/essential-information/study-heart-sydney/welfare-arrangements-students-under-18> for more information. U18 Accommodation fees are subject to annual increase.

March 17, 2024

Mahima Sirsat,

All incoming Data Science graduate students are required to complete a series of Introductory Courses. Below is the list of Introductory Courses for the Master of Science in Data Science degree plan beginning fall quarter 2023:

- IT 403: Statistics and Data Analysis
- CSC 412: Tools and Techniques for Computational Analysis
- CSC 401: Introduction to Programming

One or more Introductory Courses may be waived based on completion of equivalent academic course work.

Upon submission of the Intent to Enroll form, which can be completed at grad.depaul.edu/apply/status admissions will initiate the process to have your transcripts reviewed for course equivalency and approval for Introductory Course waivers. You will be notified if you have previous coursework that is acceptable for waivers.

If you feel you have sufficient knowledge in one or more of the introductory courses indicated above that is not waived, you may consider applying to take a Graduate Assessment Exam (GAE). We encourage you to review a description of material covered in each course at cdm.depaul.edu/gae prior to registering to take a GAE. All GAE exams are held to the same DePaul Academic Integrity policies, procedures and resources as outlined: <https://offices.depaul.edu/academic-affairs/faculty-resources/academic-integrity/Pages/default.aspx>. Otherwise, it is your responsibility to enroll in

and pass the introductory course with the grade required by your degree program.

Please note: These are the introductory courses required in the 2023-2024 academic year. Updated course requirements can be found at <http://www.cdm.depaul.edu/academics>. DePaul University Jarvis College of Computing and Digital Media is on a rolling admission basis and introductory courses could change before you begin your first quarter.
