# O. Establishment:

Biometric records, Leave applications, Leave records for the month of April'23 was verified and following points were noted.

# O.1. Casual Leave not Deducted

We have single punches in case of one employee named Suresh Rammanohar Shriwas, who was reappointed and neither Leaves were deducted nor LWP was marked for 2 days. The details of the same given below:

| Sr.<br>No. | RFID<br>No. | Name of<br>Employee            | Department   | Date        | In Time    | Out<br>Time | Remark                |    |

Auditee Reply: Respective action for deduction has been taken.

# P. Library:

#### P.1. Library Fine

We were not able to verify the library fines & penalties charged for the period April'23 to June'23, as no data was provided regarding the same.

Auditee Reply: Our institute has purchased new library software (Softlib 6.0) in the month of February-2023. Library data and other related issues including fine yet not properly solved. Due to this institute did not issue the remaining payment. After solving all the problems related to software payment will be released.

# P.2. Physical Verification of Books & Journals

#### P.2.1. Journals

Journals were verified during the course of physical verification and all were found in order.

#### P.2.2. Books

- While conducting physical verification of books, we have taken sample of 90 books. From the sample selected, most of the books were Reference Books, which are kept separately from other books.
- During the same, we noted that the books were not arranged properly. The detailed list of books was received on 12-08-2023 (Saturday) and for conducting physical verification we have visited library on 14-08-2023.
- The library staff were unable to find the books which are selected in our sample in one days. Therefore, the physical verification was continued till dated 18-08-2023.

| Sr.<br>No. | Particulars            | No. of<br>Books<br>Verified |

| 2          | Verified on 17-08-2023 | 19                          |
| 3          | Verified on 18-08-2023 | 14                          |
| 4          | Books Not Found        | 23                          |
|            | Total                  | 90                          |

Following is the summary of the same:

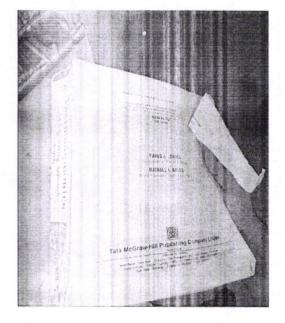

Auditee Reply: Our institute has started M.Tech. (New courses) and M.B.A from this year. So library has shifted all P.G. related books on first floor. Due to this, we rearranged the shelving of books. Mr. Khandagale and Mr. Jadhav arranged the books of P.G. and reference section. But in between father of Mr. Khandagade was expired, and he was on leave. Mr. Jadhav was busy in first year admission, both of them were not available during audit period. Other library staff were not familiar to this section because of this the process of searching books be delayed.

Auditor had taken sample of 90 books and mentioned that 23 books were not found. But these 23 books are available in library and found after the audit.

Additionally, we have observed books which were not covered in our sample was found to be in torn and bad condition. The same books were not included in scrap or kept aside for binding purpose."

(Photographic evidence)

Auditee Reply: Stock verification of library books just finished, after stock verification torn and damaged books were kept aside in rack. The library has always maintained records of all damaged books and these books will send for binding in the month of December-22.

### Arrangement of Books:

Reference books were not arranged accordingly. Implication of the same resulted into conduct of physical audit on various dates.

#### Suggestions:

Reference books should be arranged according to their separate identification number (ACCN NO.) or in the manner which will help Library staff to easily find the place where the books are located.

Auditee Reply: Recently library finished the stock verification of books so the arrangement of books were not in proper manner during the audit period. Reshelving of books are stating now in systematic manner.

#### A.3. Fees Reconciliation

Verification of collection & recording of fees was not possible due to following reasons:

- 1. Admissions were still going for new batch & thus no list is finalized as collection & refund were continuously going on. Also list of scholarship students not finalized thus due & collection was not freezed.
- 2. Collections for admissions taken in next semesters cannot be verified as it was said that results are yet to be declared & accordingly fees will get differ for students with back subjects.
- Also, the new software JUNO has been made live for entering fees data. As per the discussions held, currently the software is not giving any consolidated report showing the list students, their applicable fee, fees collected and the outstanding amount.
- 4. It is to be noted that no parallel system is running presently.

## B. Other Fines & Penalties

#### B.1. Admit Card/ ID Card Fine:

A notice has been issued where students must show Admit Card & College ID to authorized person during the examination. If student is unable to show any of the above mentioned cards then he/ she has to submit the undertaking & will have to pay Rs 500 per paper at account section.

**Observations:** We enquired with ETE (Electronics & Telecommunication Engineering) Department to check collection process where I-card not presented.

Student Undertakings has been maintained by the department but no further process taken wrt to collection of fine.

Further we discussed with Controller of Examinations, Prof D. R. Raut for charging & collection of admit card fines, & it was said that no such records have been maintained where Admit Card not presented by students & thus no further process implemented for collection of fine.

#### B.2. Breakage Fine:

Records are maintained in chemistry lab where breakage or damage occurs from students. It was informed that **Rs 100** has been intimated to students as fine for such breakages if done. No formal circular for the collection of Breakage fine was found on record.

**Observations:** Records have been maintained recording student details where breakages are seen but no further actions taken for collection of fine.

Total 37 entries of students seen for the FY 2023-24 in Breakage Fine Records. Image attached here showing records maintained by Chemistry Dept.

#### H.2. Delay in Approval, thus Excess Leaves Deducted:

Employees apply for ODS which are subject to approval from the competent authority before the salary workings get finalized for that month. If such approval gets delayed, ODS gets considered as leave & accordingly leave balance gets deducted.

2 cases observed where delay observed in approving ODS, thus leaves get deducted from leave balance.

Auditee Reply: Delay is observed in approving ODS by respective heads, thus system deducts as early going or late coming from leave balance. It is the responsibility of employee to revert where his leaves get excess deducted.

**Recommendation:** Policy required to be follow strictly wrt to approving the leaves so that no leaves get deducted from employees leave balance.

#### H.3. System Error: Excess Leaves Deducted for Present days

Leaves are deducted from system even if employee presents on leave applied date. System does not read the punching of the employee & straightforwardly deducts for that day. Thus even if, employee is working & punched his attendance, his leave balance gets deducted considering as leave taken.

Following is a details of case noticed:

| RFID | Name                      | Date     | Туре | Present On<br>Date         | Excess<br>Deduction | Amount | Remark   |

#### H.4. New Joining's

The Employee Records of New Joining's verified for the month of September to check maintenance of records & approvals & same where found in order.

#### H.5. Salary Sheet Analysis

#### **Excess Salary Paid**

A case noticed where Employee paid excess by 6.5 days whereas LWP should get deducted from his salary. Thus, excess salary paid by Rs 5,200.

#### Other Observations:

1. Every AMC Agreement provides penalty to be charged if services not provided in decided timeline on downtime of equipment's.

No separate records are maintained showing date & time of downtime of AMC equipment's & services received against same thus cannot check whether services received in contracted time & so penalty to be charged (if not received in decided time).

 As per contract Maintenance of Online UPS system should be done Quarterly. While verifying AMC of Simi Electronics it was observed that maintenance of all the UPS Systems present in Annexure was not done within the fixed timeline. Details for the services done in July to Sept '23 is as under:

| Total Items covered in AMC /CMS in Annexure                   | 13     | In the absence of the  |

| No. of items of which Service Report was not attached in file | 11     | concluded that the<br>services were not done<br>in the agreed time line. |
| Total Amount of AMC   | 70,980 |  |

However, the required services were done in the month of October & November 2023.

Timely maintenance schedule should be strictly adhered to.

For the month of November'23, Monthly Biometric Records, OD Application Report, Leave Summary Report, of all the staff were examined & following are the observations on same:

| 502  |
|------|
| 502  |
| 100% |
|      |

# H.1. Delay in Approval, thus Excess Leaves Deducted:

- Employees apply for ODS/CL/ML which are subject to approval from the competent authority before the salary workings.
- If same are not approved within due time (ie before working of salary), than LWP is deducted from salary & also on approval, leave balance gets deducted.
- This results to loss to employee as twice deduction takes place (one as direct deduction from salary & other from leave balance)
