## YCCE IT Policy

(Release: January 2021 Version 2.0)

### 1.NEED OF IT POLICY

- ❖ Basically, YCCE IT policy exists to maintain, secure, and ensure legal and appropriate use of Information technology infrastructure established by the YCCE on the campus.
- ❖ This policy establishes YCCE-wide strategies and responsibilities for protecting the **Confidentiality, Integrity, and Availability** of the information assets that are accessed, created, managed, and/or controlled by the YCCE.
- ❖ Information assets addressed by the policy include data, information systems, servers, computers, network devices, intellectual property, as well as documents and verbally communicated information

Undoubtedly, Intranet & Internet services have become the most important resources in educational institutions & research organizations. Realizing the importance of these services, YCCE took the initiative way back in 2000 and established basic network infrastructure in the academic complex of the YCCE campus.

Over the last ten years, not only active users of the network facilities have increased many folds but also the web-based applications have increased. This is a welcome change in the Institute academic environment. Considering this change YCCE decided to upgrade the network Infrastructure again in 2012.

Now, the YCCE has about 2200 network connections covering more than thirteen buildings across the campus and expected to reach 3000 connections very soon.

COMPUTER CENTER is the department that has been given the responsibility of running the YCCE intranet & Internet services.

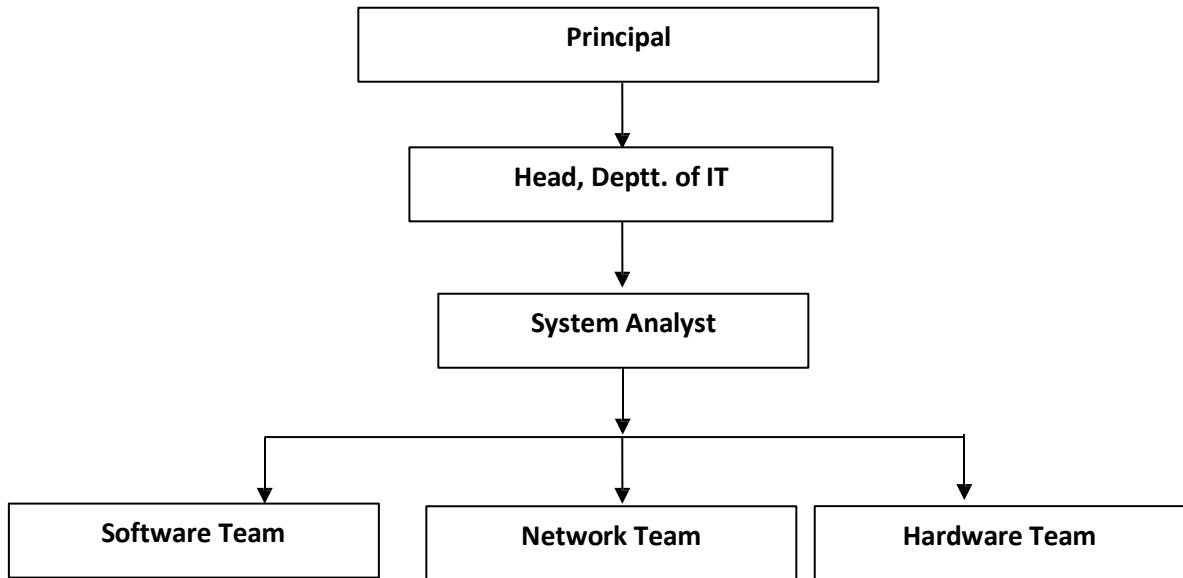

COMPUTER CENTER is running the Firewall security, DHCP, DNS, Email, web and application servers and managing the network of the YCCE.

YCCE is getting its Internet bandwidth from GENISYS COMMUNICATION. Total bandwidth availability 200 Mbps (leased line).

YCCE institutions are providing access to Internet to their faculty, students and staff.

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

## 2. ORGANOGRAM

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

IT policies may be classified into following groups:

- 1] IT Hardware Installation Policy
- 2] Software Installation and Licensing Policy
- 3] **Network** (Intranet & Internet) Use
- Policy 4] E-mail Account Use Policy
- 5] Web Site Hosting Policy
- 6] Security

It may be noted that YCCE IT Policy applies to technology administered by the Institute centrally or by the individual departments and to information services provided by the YCCE administration, or by the individual departments, or by individuals of the Institute community, or by authorized resident or non-resident visitors on their own hardware connected to the YCCE network. This IT policy also applies to the resources administered by the central administrative departments such as Library, Laboratories, Offices of the YCCE and hostels, Teaching Departments wherever the network facility was provided by the YCCE.

Computers owned by the individuals, or those owned by research projects of the faculty, when connected to campus network are subjected to the Do's and Don'ts detailed in the YCCE IT policy.

Further, all the faculty, students, staff, departments, authorized visitors/visiting faculty and others who may be granted permission to use the YCCE information technology infrastructure, must comply with the Guidelines. Certain violations of IT policy laid down by the YCCE by any YCCE member may even result in disciplinary action against the offender by the YCCE authorities. If the matter involves illegal action, law enforcement agencies may become involved.

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

### **Applies to**

- Stake holders on campus or off campus
- Students: UG, PG, Research
- Employees (Permanent/ Temporary/ Contractual)
- Faculty
- Administrative Staff (Non-Technical / Technical)
- Higher Authorities and Officers
- Guests
- Vendors

### **Resources**

- Network Devices wired / wireless
- Internet Access
- Official Websites, web applications
- Official Email services
- Data Storage
- Mobile/ Desktop / Laptops / Server computing facility
- Documentation facility (Printers/Scanners)
- Multimedia Contents

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

### 3] IT Hardware Installation

YCCE network user community needs to observe certain precautions while getting their computers or peripherals installed so that he/she may face minimum inconvenience due to interruption of services due to hardware failures.

#### A. Who is Primary User

An individual in whose room the computer is installed and is primarily used by him/her, is "primary" user. If a computer has multiple users, none of whom are considered the "primary" user, the department Head should make an arrangement and make a person responsible for compliance.

#### B. What are End User Computer Systems

Apart from the client PCs used by the users, the YCCE will consider servers not directly administered by COMPUTER CENTER, as end-user computers. If no primary user can be identified, the department must assume the responsibilities identified for end- users. Computer systems, if any, that are acting as servers which provide services to other users on the Intranet/Internet though registered with the COMPUTER CENTER, are still considered under this policy as "end-users" computers.

#### C. Warranty & Annual Maintenance Contract

Computers purchased by any Section/Department/Project should preferably be with 3-year on-site comprehensive warranty. After the expiry of warranty, computers should be under annual maintenance contract. Such maintenance should include OS re-installation and checking virus related problems also.

#### D. Power Connection to Computers and Peripherals

All the computers and peripherals should be connected to the electrical point strictly through UPS. Power supply to the UPS should never be switched off, as continuous power supply to UPS is required for battery recharging. Further, these UPS systems should be connected to the electrical points that are provided with proper earthing and have properly laid electrical wiring.

#### E. Network Cable Connection

While connecting the computer to the network, the connecting network cable should be away from any electrical/electronic equipment, as they interfere with the network communication. Further, no other electrical/electronic equipment should be shared with the power supply from where the computer and its peripherals are connected.

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

#### **F. File and Print Sharing Facilities**

File and print sharing facilities on the computer over the network should be installed only when it is absolutely required. When files are shared through network, they should be protected with password and also with read only access rule.

#### **G. Shifting Computer from One Location to another**

Computer system may be moved from one location to another with prior written intimation to the COMPUTER CENTER, as COMPUTER CENTER maintains the record of computer identification names and corresponding IP and MAC address. Such computer identification names follow the convention that it comprises building name abbreviation and room No. As and when any deviation (from the list maintained by COMPUTER CENTER is found for any computer system, network connection would be disabled and same will be informed to the user by email/phone, if the user is identified. When the end user meets the compliance and informs COMPUTER CENTER of Computer Center in writing/by email, connection will be restored.

#### **H. Maintenance of Computer Systems provided by the YCCE**

For all the computers that were purchased by the Institute centrally and distributed by the Estate Branch, YCCE Computer Maintenance Cell (COMPUTER CENTER) will attend the complaints related to any maintenance related problems.

#### **I. Noncompliance**

YCCE faculty, staff, and students not complying with this computer hardware installation policy may leave themselves and others at risk of network related problems which could result in damaged or lost files, inoperable computer resulting in loss of productivity. An individual's non-compliant computer can have significant, adverse effects on other individuals, groups, departments, or even whole YCCE. Hence it is critical to bring all computers into compliance as soon as they are recognized not to be non-compliant.

#### **J. Computer Centre**

COMPUTER CENTER upon finding a non-compliant computer affecting the network, will notify the individual responsible for the system and ask that it be brought into compliance. Such notification will be done via online portal/telephone and a copy of the notification will be sent to the COMPUTER CENTER. The individual user will follow-up the notification to be certain that his/her computer gains necessary compliance. The COMPUTER CENTER will provide guidance as needed for the individual to gain compliance. User can report his complaint to <http://172.16.1.3/helpdesk> on this official online portal.

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

## 4] Software Installation and Licensing

Any computer purchases made by the individual departments/projects should make sure that such computer systems have all licensed software (operating system, antivirus software and necessary application software) installed.

Respecting the anti-piracy laws of the country, YCCE IT policy does not allow any pirated/unauthorized software installation on the Institute owned computers and the computers connected to the YCCE campus network. In case of any such instances, YCCE will hold the department/individual personally responsible for any pirated software installed on the computers located in their department/individuals' rooms.

### A. Operating System and its Updating

1. Individual users should make sure that respective computer systems have their OS updated in respective of their service packs/patches, through Internet. This is particularly important for all MS Windows based computers (both PCs and Servers). Updating OS by the users helps their computers in fixing bugs and vulnerabilities in the OS that were periodically detected by the Microsoft for which it provides patches/service packs to fix them. Checking for updates and updating of the OS should be performed at least once in a week or so.

2. YCCE as a policy encourages user community to go for open source software such as Linux, Open office to be used on their systems wherever possible.

### B. Antivirus Software and its updating

1. Computer systems used in the Institute should have anti-virus software installed, and it should be active at all times. The primary user of a computer system is responsible for keeping the computer system compliant with this virus protection policy.

2. Individual users should make sure that respective computer systems have current virus protection software installed and maintained. He/she should make sure that the software is running correctly. It may be noted that any antivirus software that is running on a computer, which is not updated or not renewed after its warranty period, is of practically no use. If these responsibilities appear beyond the end user's technical skills, the end-user is responsible for seeking assistance from Computer Center.

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

### C. Backups of Data

Individual users should perform regular backups of their vital data. Virus infections often destroy data on an individual's computer. Without proper backups, recovery of destroyed files may be impossible. Preferably, at the time of OS installation itself, one can have the computer's hard disk partitioned into two volumes typically C and D. OS and other software should be on C drive and user's data files on the D drive. In case of any virus problem, generally only C volume gets corrupted. In such an event formatting only C drive volume, will protect the data loss. However, it is not a foolproof solution. Apart from this, users should keep their valuable data either on portable hard disk or other reliable storage devices.

## 5] Network (Intranet & Internet/Wi-Fi) Use

Network connectivity provided through the YCCE, referred to hereafter as “the Network”, either through an authenticated network access connection or a Virtual Private Network (VPN) connection, is governed under the YCCE IT Policy. The Communication & Information Services (COMPUTER CENTER) is responsible for the ongoing maintenance and support of the Network, exclusive of local applications. Problems within the YCCE network should be reported to COMPUTER CENTER on <http://172.16.1.3/helpdesk>

### A. IP Address Allocation

Any computer (PC/laptop/Server) that will be connected to the YCCE network, should have an IP address assigned by the DHCP server. Following a systematic approach, the range of IP addresses that will be allocated to each building is decided. So, any computer connected to the network from that building will be allocated IP address only from that Address pool. Further, each network port in the room from where that computer will be connected will have binding internally with that IP address so that no other person uses that IP address unauthorized from any other location.

Any IP base device like network printer, smart TV, bio metric machine, CCTV DVR, IP Camera, Video conferencing device, IP Phone etc. is to be install at any location, then the concern user should contact DHCP server and get proper IP Address.

An IP address allocated for a particular computer system should not be used on any other computer even if that other computer belongs to the same individual and will be connected to the same port. IP addresses are given to the computers but not to the ports.

	<b>YESHWANTRAO CHAVAN</b> <b>COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

## **B. DHCP Configuration by Individual Departments /Sections/ Users**

Use of any computer at end user location as a DHCP server or Wi-Fi router to connect to more computers through an individual switch and distributing IP addresses (public or private) should strictly be avoided, as it is considered absolute violation of IP address allocation policy of the Institute. Similarly, configuration of proxy servers should also be avoided, as it may interfere with the service run by COMPUTER CENTER. Even configuration of any computer with additional network interface card or creating Wi-Fi hot spots and connecting another computer to it is considered as proxy/DHCP configuration. Non-compliance to the IP address allocation policy will result in disconnecting the port from which such computer is connected to the network. Connection will be restored after receiving written assurance of compliance from the concerned department/user.

## **C. Running Network Services on the Servers**

Individual departments/individuals connecting to the YCCE network over the LAN may run server software, e.g., HTTP/HTTPS Web server, SMTP server, FTP server, only after bringing it to the knowledge of the FIREWALL UNIT in writing and after meeting the requirements of the YCCE IT policy for running such services. Non-compliance with this policy is a direct violation of the YCCE IT policy, and will result in termination of their connection to the Network. FIREWALL UNIT takes no responsibility for the content of machines connected to the Network, regardless of those machines being Institute or personal property. FIREWALL UNIT will be constrained to disconnect client machines where potentially damaging software is found to exist. A client machine may also be disconnected if the client's activity adversely affects the Network's performance. Access to remote networks using a YCCE network connection must be in compliance with all policies and rules of those networks. This applies to any and all networks to which the YCCE Network connects. YCCE network and computer resources are not to be used for personal commercial purposes. Network traffic will be monitored for security and for performance reasons at YCCE Campus. Impersonation of an authorized user while connecting to the Network is in direct violation of this agreement and will result in the termination of the connection.

## **D. Wi-Fi/Cellular/Dial-up/Broadband Connections**

Wi-Fi routers, mobiles, USB Broad band modem, Computer systems or any such devices that are part of the YCCE's campus-wide network, whether YCCE's property or personal property, should not be used for dial-up/broadband connections, as it violates the YCCE's security by way of bypassing the firewalls and other network monitoring servers. Non-compliance with this policy may result in withdrawing the IP address allotted to that computer system.

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

### **E. Wireless Local Area Networks**

1. This policy applies, in its entirety, to department, or division wireless local area networks. In addition to the requirements of this policy, departments, or divisions must register each wireless access point with INTERNET UNIT including Point of Contact information.
2. Departments, or divisions must inform COMPUTER CENTER for the use of radio spectrum, prior to implementation of wireless local area networks.
3. Departments, or divisions must not operate wireless local area networks with unrestricted access. Network access must be restricted either via authentication or MAC/IP address restrictions. Passwords and data must be encrypted.
4. If individual departments want to have inter-building wireless network, prior to installation of such network, it should obtain permission from the Institute authorities whose application may be routed through the Coordinator, COMPUTER CENTER.

### **F. Internet Bandwidth obtained by Other Departments**

Internet bandwidth acquired by any Section, department of the YCCE under any research program/project should ideally be pooled with the YCCE's Internet bandwidth, and be treated as YCCE's common resource. Under particular circumstances, which prevent any such pooling with the YCCE Internet bandwidth, such network should be totally separated from the YCCE's campus network. All the computer systems using that network should have separate IP address scheme (private as well as public) and the YCCE gateway should not be specified as alternative gateway. Such networks should be adequately equipped with necessary network security measures as laid down by the YCCE IT policy. One copy of the network diagram giving the details of the network design and the IP address schemes used may be submitted to COMPUTER CENTER.

### **G. Un-authorized Network expansion**

Any user or department is not allowed to connect additional desktop network switch as it may create loops or unwanted traffic. If it is very essential, then user/department must get proper permission from COMPUTER CENTER. Non-compliance to this policy will be direct violation of the YCCE's IT security policy.

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

## Internet Access

Normally Internet access is available to all computers, laptops, servers, mobile devices and other IP based devices which are authorized to connect to the campus network.

It is responsibility of the individual to access Internet in the ethical and legitimate manner. Sometimes the user is unaware of risks in accessing some websites/web applications/apps and may get infected with virus, malware, adware or expose vulnerability. Therefore, users are broadly categorized as faculty, research students, UG/PG students, officers, clerical staff and technical staff. Depending on the category Internet access will be filtered at firewall. So that intentional or unintentional access to malicious websites/web applications (eg. Gaming, streaming, social media, online shopping etc.) will be avoided by default.

In case a website is filtered out, however it is essential for academic and administrative purpose, then the individual/ section/ department may request to COMPUTER CENTER. After verifying the need, authenticity and safety, COMPUTER CENTER will make the requested website available. (eg. Banking sites, payment sites, and temporary links on Government sites etc.)

### Wi-Fi implementation and usage

#### Applies to

- Stake holders on campus or off campus
- Students: UG, PG, Research
- Employees (Permanent/ Temporary/ Contractual)
- Faculty
- Administrative Staff (Non-Technical / Technical)
- Higher Authorities and Officers
- Eminent Guests
- Vendors.

#### Resources

- Wi-Fi Access Points /routers installed by Institute
- Internet Access
- Official Websites, web applications
- Official Email services
- Data Storage
- Multimedia Contents

Wi-Fi facility is implemented for the above mentioned stake holders in the campus. For uniform and efficient and solicited usage of the Wi-Fi facility policies are defined as follows:

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

## Wi-Fi Access and locations

1. Wi-Fi Access Point Location: Almost all buildings in the campus have been built using stones. Therefore, implementing Wi-Fi facility was a great challenge. Making Wi-Fi available in every room will not be economic. Furthermore, it was suggested that Wi-Fi facility may be made available in mostly at common places like canteen, library, hostel corridors, department corridors, Laboratories, guest house and officers residences etc.

2. Wi-Fi Access Points may not be placed in the classroom.

3. Wi-Fi Access Points may be placed temporarily on demand in auditoria and other places, for conference, workshops, symposia and any other important events.

Personal Wi-Fi Access devices may not be allowed; as such devices may cause disturbance in IP allotment and security threat to YCCE's Network. If found the personal devices may be confiscated by COMPUTER CENTER.

In special cases the individual or department may approach to COMPUTER CENTER and get proper secure configuration and registration of the personal/ department's Access Points or routers.

### Methods for Wi-Fi users Authentication/ Authorization and Activity Logs

For Wi-Fi access physical connectivity between client and Access point is not necessary. Hence, if proper care is not taken then any person with Wi-Fi enabled device may access the Wi-Fi services. Therefore, to prevent unauthorized access, identification/ authentication, authorization and activity logs of the users is a must. Following action plan is devised for one time registration/identification of the authorized devices and users:

4. Device identification by MAC (Media Access Control) and user identification by Employee number of Faculty, administrative officers and authorities. This is one time process. Data is collected from Establishment Section and Pay bills Section.

5. In case of Research Students PRN is used for their identification, which is printed on their Library card.

6. UG/PG students on the campus are given Wi-Fi Access based on their PRN and some other parameters. On one-time registration the device of the student is registered for the period depending on their Course. After completion of the course duration the user will be automatically deleted from the system. On the commencement of academic year, the academic departments should provide the list of their students in prescribed format on email to COMPUTER CENTER.

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

7. For respected guests/invitees staying in the campus Wi-Fi access is given on demand by the corresponding hosts. It is password based access. Passwords are changed periodically by COMPUTER CENTER.

#### **Changes/ Modifications in the user details**

8. In case a mobile device is lost/stolen/sold/transferred the user should intimate the COMPUTER CENTER immediately.

9. For Wi-Fi access to new mobile device an employee should intimate the new MAC Id of the device to COMPUTER CENTER by an email sent from his/her official email id. COMPUTER CENTER will modify accordingly.

10. For Wi-Fi access to new mobile device a student should intimate the new MAC Id of the device to COMPUTER CENTER by an application forwarded through the respective Head of the Department.

#### **Wi-Fi Usage**

11. The individual user will be responsible for his/her Wi-Fi usage made.

12. Solicited and ethical usage is expected from the users.

13. The Internet Access through Wi-Fi is filtered access. Possible phishing, spurious, unsolicited or obscene sites, gaming sites, some shopping/multimedia streaming site are blocked at firewall level.

14. There shall be per day usage quota on Students User class.

15. The users will access the YCCE Resources properly and will not try to harm the resources.

#### **Misuse and actions**

16. If a user or his/her device is making any harm to YCCE resources or other users, then such a user will be warned by COMPUTER CENTER. User's intention and device are verified. The corresponding Head of the department will be informed accordingly.

17. A virus infected device may create noticeable network traffic or attempts cyber-attacks. Then the user will be notified and his/her access shall be blocked until the infected device is cleaned/ free from viral infection.

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

## 6] Email Account Use

In an effort to increase the efficient distribution of critical information to all faculty, staff and students, and the YCCE's administrators, it is recommended to utilize the YCCE's e-mail services, for formal YCCE communication and for academic & other official purposes. E-mail for formal communications will facilitate the delivery of messages and documents to campus and extended communities or to distinct user groups and individuals. Formal Y C C E communications are official notices from the YCCE to faculty, staff and students. These communications may include administrative content, such as human resources information, policy messages, general YCCE messages, official announcements, etc. To receive these notices, it is essential that the e-mail address be kept active by using it regularly. Staff and faculty may use the email facility by logging on to <https://login.microsoftonline.com/> with their User **ID** and **password**. For obtaining the YCCE's email account, user may contact COMPUTER CENTER for email account and default password by submitting an application in a prescribed format. Users may be aware that by using the email facility, the users are agreeing to abide by the following policies:

1. The facility should be used primarily for academic and official purposes and to a limited extent for personal purposes.
2. Using the facility for illegal/commercial purposes is a direct violation of the YCCE's IT policy and may entail withdrawal of the facility. The illegal use includes, but is not limited to, the unlicensed and illegal copying or distribution of software, sending of unsolicited bulk e-mail messages and generation of threatening, harassing, abusive, obscene or fraudulent messages/images.
3. While sending large attachments to others, user should make sure that the recipient has email facility that allows him to receive such large attachments.
4. User should keep the mail box used space within about 80% usage threshold, as 'mail box full' or 'mailbox all most full' situation will result in bouncing of the mails, especially when the incoming mail contains large attachments.
5. User should not open any mail or attachment that is from unknown and suspicious source. Even if it is from known source, and if it contains any attachment that is of suspicious nature or looks dubious, user should get confirmation from the sender about its authenticity before opening it. This is very much essential from the point of security of the user's computer, as such messages may contain viruses that have potential to damage the valuable information on your computer.

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

6. Users should configure messaging software (Outlook Express/Netscape messaging client etc.) on the computer that they use on permanent basis, so that periodically they can download the mails in the mailbox on to their computer thereby releasing the disk space on the server. It is user's responsibility to keep a backup of the incoming and outgoing mails of their account.

7. User should not share his/her email account with others, as the individual account holder is personally held accountable, in case of any misuse of that email account.

8. User should refrain from intercepting, or trying to break into others email accounts, as it is infringing the privacy of other users.

9. While using the computers that are shared by other users as well, any email account that was accidentally left open by another user, should be promptly closed without peeping into its contents, by the user who has occupied that computer for its use.

10. Impersonating email account of others will be taken as a serious offence under the YCCE IT security policy.

11. It is ultimately each individual's responsibility to keep their e-mail account free from violations of Institute's email usage policy.

12. Any Spam mail received by the user into INBOX should be forwarded to [webincharge@ycce.edu](mailto:webincharge@ycce.edu)

13. Any mail wrongly stamped as SPAM mail should be forwarded to [webincharge@ycce.edu](mailto:webincharge@ycce.edu)

14. All the mails detected as spam mails go into SPAM\_MAIL folder of the respective users' mail accounts. Users are requested to open these folders periodically to check any important mail wrongly stamped as SPAM mail and went into this folder. If so, user may forward that mail ID to [webincharge@ycce.edu](mailto:webincharge@ycce.edu) for necessary action to delete from the spam mail category. It is recommended to empty this folder as frequently as possible.

The above laid down policies particularly 1 to 11 are broadly applicable even to the email services that are provided by other sources such as gmail.com, rediffmail.com, Hotmail.com, Yahoo.com etc., as long as they are being used from the YCCE's campus network, or by using the resources provided by the YCCE to the individual for official use even from outside.

## 7] Web Site Hosting

### 1. Official Pages

Sections, departments, and Associations of Teachers/Employees/Students may have pages on YCCE's Intranet Channel of the official Web page. Official Web pages must conform to the YCCE Web Site Creation Guidelines for Web site hosting. As on date, the YCCE's webmaster is responsible for maintaining the official web site of the YCCE viz., <https://www.ycce.edu> only.

### 2. Personal Pages:

The YCCE computer and network infrastructure is a limited resource owned by the YCCE. It is recognized that each individual faculty will have individual requirements for his/her pages. Hence, faculty may have their personal pages linked to official web site of the YCCE by sending a written request to COMPUTER CENTER giving the details of the hyperlink of the URL that he/she wants to be added in the official web site of the YCCE. However, illegal or improper usage will result in termination of the hyperlink. The contents of personal pages must not violate any applicable export laws and regulations, must not constitute a copyright or trademark infringement, must not be used for commercial purposes, must not be used for political lobbying, and must not otherwise violate any local, state, or central government laws. Personal pages also will not include the hosting of pages for other individuals or groups. Personal pages should explicitly mention that views expressed by him/her in their pages are exclusively their own and not that of the YCCE.

### 3. Affiliated Pages:

Faculty may host Web pages for "affiliated" professional organizations on department Web servers as long as adequate support and resources are available. Prior approval from the competent administrative authority must be obtained for hosting such pages. Individual units reserve the right to discontinue the service and will provide reasonable advance notice to that affiliated organization.

### 4. Web Pages for eLearning

Faculty have class materials (syllabi, course materials, resource materials, etc.) on the Web, linked through the appropriate department's pages. Because majority of student pages will be published on the Institute's Web for eLearning, it must reflect the academic mission, and be careful that the published material is not misrepresentative in any way by conflicting with official YCCE or other Web sites. If a student publishes a fictional Web site or a Web site modeled after an existing institution or corporation, the site must be clearly identified as a class project.

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

The following are the storage and content requirements for class-generated student Web pages:

**5. Servers:**

It is recommended that pages be placed on the student information server, but pages developed for classes also may be placed on departmental servers or the main campus server meant for e-Learning purpose.

**6. Maintenance:**

If the pages are published on the e-Learning information server, they will be maintained under the default rules for personal e-Learning pages.

The instructor will maintain pages that are published on departmental servers or the main campus server meant for e-Learning purpose.

**7. Content Disclaimer:**

The home page of every class-generated site will include the YCCE Content Disclaimer (for pages published on the e-Learning information server, the content disclaimer should be generated automatically).

**8. Policies for Maintaining Web Pages**

Pages must relate to the YCCE’s mission. Authors of official YCCE and affiliated pages are required to announce their Web presence by sending an announcement to [webincharge@ycce.edu](mailto:webincharge@ycce.edu). Mails sent to this address will be placed in a YCCE Public E- Mail Folder in the YCCE’s official web site. The announcement should include:

1. The URL
2. A brief explanation of content or purpose of the pages (i.e., Web pages for an administrative or academic unit, etc.). The primary page must include a link to the YCCE Home Page and, if applicable, contain additional links to the sponsoring organization or department.

## 8] Cyber Security

### Computer Access Control – Individual’s Responsibility

Access to the (YCCE) IT systems is controlled by the use of User IDs, passwords. All User IDs and passwords are to be uniquely assigned to named individuals and consequently, individuals are accountable for all actions on the (YCCE’s) IT systems.

#### Individuals must not:

- Allow anyone else to use their user ID and password on any (YCCE) IT system.
- Leave their user accounts logged in at an unattended and unlocked computer.
- Use someone else’s user ID and password to access (YCCE’s) IT systems. Leave their password unprotected (for example writing it down).
- Perform any unauthorized changes to (YCCE’s) IT systems or information. Attempt to access data that they are not authorized to use or access.
- Exceed the limits of their authorization or specific Academic and Administrative need to interrogate the system or data.
- Connect any non-(YCCE) authorized device to the (YCCE) network or IT systems.
- Store (YCCE) data on any non-authorized (YCCE) equipment. Give or transfer (YCCE) data or software to any person or organization. Outside (YCCE) without prior permission from (YCCE) authorities.

#### Internet and email Conditions of Use

Use of (YCCE) internet and email is intended for Academic and Administrative use. Personal use is permitted where such use does not affect the individual’s Academic and Administrative performance, is not detrimental to (YCCE) in any way, not in breach of any term and condition of employment and does not place the individual or (YCCE) in breach of statutory or other legal obligations.

All individuals are accountable for their actions on the internet and email systems.

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

**Individuals must not:**

- Use the internet or email for the purposes of harassment or abuse.
- Use profanity, obscenities, or derogatory remarks in communications.
- Access, download, send or receive any data (including images), which (YCCE) considers offensive in any way, including sexually explicit, discriminatory, defamatory or libelous material.
- Use the internet or email to make personal gains or conduct a personal Academic and Administrative.
- Use the internet or email to gamble.
- Use the email systems in a way that could affect its reliability or effectiveness, for example distributing chain letters or spam.
- Place any information on the Internet that relates to (YCCE), alter any information about it, or express any opinion about (YCCE), unless they are specifically authorized to do this.
- Send unprotected sensitive or confidential information externally.
- Forward (YCCE) mail to personal (non-YCCE) email accounts (for example a personal Hotmail account).
- Make official commitments through the internet or email on behalf of (YCCE) unless authorized to do so.
- Download copyrighted material such as music media (MP3) files, film and video files (not an exhaustive list) without appropriate approval.
- In any way infringe any copyright, database rights, trademarks or other intellectual property.
- Download any software from the internet without prior approval of the COMPUTER CENTRE
- Connect (YCCE) devices to the internet using non-standard connections. Like external USB Modem, Mobile Devices, Jio Wi-Fi etc.

**Clear Desk and Clear Screen Policy**

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

In order to reduce the risk of unauthorized access or loss of information, (YCCE) enforces a clear desk and screen policy as follows:

- Personal or confidential Academic and Administrative information must be protected using security features provided for example secure print on printers.
- Computers must be logged off/locked or protected with a screen locking mechanism controlled by a password when unattended.
- Care must be taken to not leave confidential material on printers or photocopiers.
- All Academic and Administrative-related printed matter must be disposed of using confidential waste bins or shredders.

### **Working Off-site**

It is accepted that laptops and mobile devices will be taken off-site. The following controls must be applied:

- Working away from the office must be in line with (YCCE) remote working policy.
- Equipment and media taken off-site must not be left unattended in public places and not left in sight in a car.
- Laptops must be carried as hand luggage when travelling.
- Information should be protected against loss or compromise when working remotely (for example at home or in public places). Laptop encryption must be used.
- Particular care should be taken with the use of mobile devices such as laptops, mobile phones, smartphones and tablets. They must be protected at least by a password or a PIN and, where available, encryption.

### **Mobile Storage Devices**

Mobile devices such as memory sticks, CDs, DVDs and removable hard drives must be used only in situations when network connectivity is unavailable or there is no other secure method of transferring data. Only (YCCE) authorized mobile storage devices with encryption enabled must be used, when transferring sensitive or confidential data.

### **Software**

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

Employees must use only software that is authorized by (YCCE) on (YCCE's) computers. Authorized software must be used in accordance with the software supplier's licensing agreements. All software on (YCCE) computers must be approved and installed by the COMPUTER CENTRE.

**Individuals must not:**

Store personal files such as music, video, photographs or games on (YCCE) IT equipment. i.e. Servers and Storage Equipment's

**Viruses**

The COMPUTER CENTRE has implemented centralized, automated virus detection and virus software updates within the (YCCE). All PCs have antivirus software installed to detect and remove any virus automatically.

**Individuals must not:**

- Remove or disable anti-virus software.
- Attempt to remove virus-infected files or clean up an infection, other than by the use of approved (YCCE) anti-virus software and procedures.
- Install Anti-virus solution from any other brand/product (unauthorized / not licensing)

**Telephony (Voice) Equipment Conditions of Use**

Use of (YCCE) voice equipment is intended for Academic and Administrative use. Individuals must not use (YCCE's) voice facilities for sending or receiving private communications on personal matters, except in exceptional circumstances. All non-urgent personal communications should be made at an individual's own expense using alternative means of communications

**Individuals must not:**

- Use (YCCE's) voice for conducting private Academic and Administrative. Make hoax or threatening calls to Internal or external destinations.
- Accept reverse charge calls from domestic or International operators, unless it is for Academic and Administrative use.

**Actions upon Termination of Contract/Course completion/Service**

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

- All (YCCE) equipment and data, for example laptops and mobile devices including telephones, smartphones, USB memory devices and CDs/DVDs, must be returned to (YCCE) at termination of contract/Course completion/Service.
- All (YCCE) data or intellectual property developed or gained during the period of employment remains the property of (YCCE) and must not be retained beyond termination or reused for any other purpose.

### **Monitoring and Filtering**

- All data that is created and stored on (YCCE) computers is the property of (YCCE) and there is no official provision for individual data privacy, however wherever possible (YCCE) will avoid opening personal emails.
- IT system logging will take place where appropriate, and investigations will be commenced where reasonable suspicion exists of a breach of this or any other policy. (YCCE) has the right (under certain conditions) to monitor activity on its systems, including internet and email use, in order to ensure systems security and effective operation, and to protect against misuse.
- Any monitoring will be carried out in accordance with audited, controlled internal processes, the Regulation of Investigatory Powers Act 2000 and the Telecommunications (Lawful Academic and Administrative Practice Interception of Communications) Regulations 2000.

## **9] IT Help Desk**

### **Overview**

A IT help desk is a resource intended to provide the customer or end user with information and support related to a IT services. The purpose of a IT help desk is usually to troubleshoot problems or provide guidance about Hardware issues, Networking Issues, or Software Issues. We usually provide IT help desk support to our end users through various channels such as Internal phone calls, IT Help Desk complain portal or email.

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

Portal link:  
<http://172.16.1.3/helpdesk/>

### **Purpose**

A typical IT help desk can effectively perform several functions. It provides a single (or multiple) point of contact for users to gain assistance in troubleshooting, get answers to questions, and solve known / unknown problems. A help desk generally manages its requests through the use of software such as IT complain portal. (Screen shot attached below)

### **Scope**

The IT Help Desk is intended to be a primary point of engagement between users and an IT organization. A typical IT help desk manages incidents (service disruptions) and service requests (routine service-related tasks) along with handling user communications for things like outages and planned changes to services. An IT help desk is a multi-dimensional resource, designated to help in reducing downtime in IT services and functions and making them available for maximum time. It is specially focused on end user functionality, and, thus, is responsible for quick resolution of immediate needs, incidents and technical issues of end users.

### **Policy**

- ✓ We have implemented In House developed IT complain portal

	<b>YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING</b>	<b>Doc. No.</b>	<b>YCCE/IT policy/IT-02</b>
	<b>IT POLICY</b>	<b>Issue No.</b>	<b>02</b>
		<b>Rev. No.</b>	<b>01</b>
		<b>Date:</b>	<b>1/1/2021</b>

- ✓ Whenever end user is facing any problem related to Hardware / Software / Networking, he/she has to login to the portal and register the complaint as per their need.
- ✓ If the user cannot access the IT complain portal, then he/she can call on the IT Helpdesk helpline numbers which is issued to all the end users
- ✓ Once the complaint is registered it is assigned to the designated IT helpdesk engineer in a form of ticket, which can be viewed on a central system or on engineers mobile.
- ✓ Once the complaint is received the engineer has to accept the same and start working on it to resolve it
- ✓ Engineer has to resolve the issue within 4 hours after the complaint is registered based on the severity of the issue.
- ✓ If the issue is related to any hardware replacement which will take time and need to be procured from the market, then the complaint (Ticket) is kept on hold with proper justification in the ticket
- ✓ Once the ticket is resolved IT help desk engineer has to update the ticket with the justification and mark the ticket as completed.
- ✓ IT Help desk is available 24x7x365 days. (Off Business hours and weekends it's ON Call)
- ✓ On Call is on rotational basis which will be published every 2 months in advance to all the stake holders

### AUDITOR'S REPORT

We have audited attached financial statements of the YESHWANTRAO CHAVAN COLLEGE OF ENGINEERING, NAGPUR Managed by NAGAR YUWAK SHIKHSHAN SANSTHA, NAGPUR as of and for the year ended on 31<sup>st</sup> March 2022. These financial statements are the responsibility of the management of the trust. Our responsibility is to express an opinion on these financial statements based on our audits.

We have conducted our audits in accordance with the auditing standards generally accepted in the India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for the designing audit procedure that are appropriate in the circumstances, an audit also includes examining, on test basis, evidences supporting the amounts and the disclosures in the financial statements, assessing accounting principles used and significant estimates made by the management, as well as evaluating the financial statement presentations. We believe that our audits provide the reasonable basis for our opinion. On the basis of our audits, report that-

- 1 We have obtained all the information and explanations, which to the best of our knowledge and belief are necessary for the purpose of Audit and for determination of fees by the Authority
2. Proper books of accounts as required by law have been kept.
3. The Balance Sheet and Income and Expenditure Account referred to in this report are in agreement with the books of accounts maintained.
4. Mercantile Method of accounting is consistently followed by the institution and there is no change carried out during previous year.

In our opinion and to the best of our information and according to the explanation given to us, the said Financial Statements gives a true and fair view.

- a) In so far it relates to Balance Sheet of the State of Affairs of the Trust as on 31<sup>st</sup> March 2022.
- b) In case of Income and Expenditure Account of Surplus for the year ended on 31<sup>st</sup> March 2022.

# Geo Tagged IT Infrastructure Including WIFI & Cyber Security

The screenshot shows the FortiGate web interface for a Cisco 5508 Series Wireless Controller. The main content area is divided into several sections:

- Controller Summary:**
  - Management IP Address: 10.0.16.2, ::/128
  - Service Port IP Address: 0.0.0.0, ::/128
  - Software Version: 8.0.140.0
  - Field Recovery Image Version: 6.0.182.0
  - System Name: Cisco\_19:c5:64
  - Up Time: 12 days, 3 hours, 15 minutes
  - System Time: Thu Dec 23 15:43:30 2021
  - Redundancy Mode: Disabled
  - Internal Temperature: +39 C
  - 802.11a Network State: Enabled
  - 802.11b/g Network State: Enabled
  - Local Mobility Group: YCCE\_MOB\_DOMAIN
  - CPU(s) Usage: 0%
  - Individual CPU Usage: 0%/1%, 0%/1%, 0%/1%, 0%/1%, 0%/1%, 0%/1%, 0%/0%, 0%/0%
  - Memory Usage: 45%
- Rogue Summary:**
  - Active Rogue APs: 275
  - Active Rogue Clients: 7
  - Adhoc Rogues: 2
  - Rogues on Wired Network: 0
- Top WLANs:**
  - Profile Name: YCCE-WIFI
  - # of Clients: 99
- Most Recent Traps:**
  - Coverage hole cleared for Base Radio MAC: 00:27:e3:85:8a:80 and slotNo: 0
  - Rogue AP : 30:b6:2d:91:7f:40 removed from Base Radio MAC : 94:6c:2a:d4:10:90 Interface no:0(802.11n(2.4 GHz))
  - Coverage hole pre alarm for client[2] 94:17:00:e4:ad:3f on 802.11b/g interface of AP 54:a2:74:8e:a9:50 (CCC-AP-), Hist: (
  - Coverage hole pre alarm for client[2] 72:50:5a:89:68:9e on 802.11b/g interface of AP 00:3a:9a:c9:bb:50 (Admin-BoardRoo
  - Coverage hole cleared for Base Radio MAC: 54:a2:74:8e:a9:50 and slotNo: 0
