BLOOD DONATION CAMP

A great initiative of organizing a blood donation camp was taken by PRAYAAS – Naye kal ka (Social club of the Electrical department YCCE) on 23 August 2022 under the guidance of student activity In-charge Prof. Vaibhaw Doifode. The blood donation program was held from 10:30 am morning. All the students along with the professors were seen to take greater initiatives.

The initiative attempted to gather extras from donors who were interested in donating the books, colours and other stationary items. These things were gathered till one week before to the journey. The CTSC crew went to Shradhandandpeth Anathalya, Abyankar Nagar Road, Nagpur, where they distributed the stationary items, they had gathered. The crew was overjoyed to see the recipients' expressions, especially the youngsters, after receiving the donations. The donation drive was a huge success, and the CTSC crew was overjoyed to have been able to help people in need. The campaign assisted in fostering among the kids a feeling of civic duty and volunteerism. The initiative taken by the Computer Technology Student Council was an admirable effort that helped supply necessities to individuals who are less fortunate. The beneficiaries' joyful faces served as evidence of the drive's success, and the team's efforts were recognised.

Summary:

The Department of Computer Technology organised a "NIRMALYA" Collection Drive on the occasion of Anant Chaturthi, **September 9, 2022**. During the Ganesh festival, devotees often tend to immerse the offerings along with the idol of Lord Ganesh during the Visarjan. This leads to severe pollution of water bodies.

In order to prevent any harm to waterbodies, our department decided to conduct a Nirmalya collection drive. A total of 12 volunteers were there in a group of four. They visited different waterbodies in the city.

They made sure that they collect the offerings from the devotees and dispose it without causing any pollution. Also, the sentiments of the devotees were taken care of. Our small effort indeed saved the water bodies from getting polluted.
