## Department of Civil Engineering

Report on Value Added Course on "PLANNING OF BUILDING USING AUTOCAD " dated 10/09/2016 to 15/10/2016

The Value Aided Course on "Planning of Building using AutoCAD" was an attempt to introduce students to the world of software. Mr. Sagar Deogirkar, who is currently working as the CENTRE HEAD (Development and Design and Analysis), CADD CENTRE, NAGPUR, discusses his expertise with students and provides a realistic vision of the software world. Mr. Sagar Deogirkar is an energetic expert with 8 years of experience in structural and mechanical parts design and development, engineering change management, bill of material (BOM) & new product launches, material planning, and obsolescence control.

The goals of this Value Added Course on "Planning of Building using AutoCAD" enables drafters, architects, engineers, and other experienced professionals to create two dimensional and three-dimensional models of solid surfaces and meshes. AutoCAD is widely used, and it helps in preventing product failures and warranty issues. With innovative ideas and creative imagination, the students can create realistic presentations with AutoCAD. It provides the necessary tools and workflow to design and build great products.

The detail schedule for the VAC is given below:

### Report on Value Added Course on "Revit" dated 16.07 To 20.08, 2017

This Value Added Course on "Revit" aimed to educate students about software by Er. Ashwin Gunjan, DESIGN HEAD ASTRAL INFOCRACKS NAGPUR, experts in structural design, engineering change management, new product launches, planning, and obsolescence control.

This Value Added Course on "Revit" to make students aware of basic choice work or study. Revit is an useful software for architects and other building professionals that can be used for architectural design and documentation. Revit facilitates the users to produce a perfect and detailed building model in quickest possible time.

Revit empowers the civil engineers to render the best performance with the creation of virtual illustration of building products. Starting from the Design Development & Coordination, 3D Modeling, Drawing Set Creation to Quantity Take-off, civil engineers can obtain the separate product specifications of the building which range from the color, tolerance, cost and other info. All these are essential to take informed decisions.

**The detail schedule for the VAC is given below:**

| Revit Total Duration : 30 Sessions |  |
|------------------------------------|--|
| <b>SESSION 1</b>                   | INTRODUCTION TO AUTODESK REVIT <ul style="list-style-type: none"><li>• Introduction to Revit</li><li>• Basics of Modeling</li><li>• Use of Revit for Better Drawings</li></ul>   |

### NOTICE

#### VII Sem. B.E. Civil

It gives us immense pleasure to announce that Department of Civil Engineering, Yeshwantrao Chavan College of Engineering, Nagpur organizing a Value-Added Course on " Water Gems"

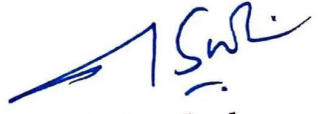

All interested students of 4th year Civil Engineering are instructed to register yourself with Prof. khalid Ansari.

Registration is completely based on first come first basis.

Total Duration of course is 30 Hrs

Schedule of classes is conveyed after the registration.

After completion of course. Students having attendance more than 80% get the certificates.

### Objectives of the Workshop

- To make the student aware of WATER GEMS as it is a comprehensive civil engineering software that addresses all aspects of engineering including model development, verification, analysis, design, and review of results
- To Enhance knowledge of WATER GEMS that will help students to pursue their career in the field of analysis and design of civil engineering structures
- To boost entrepreneurship in the field of WATER GEMS.

The expected audience is 3rd year students of B.E. Civil Engineering.

**The registration is free.** The student participants will be awarded with certificate of participation.

### Report on Value Added Course on "Water Gems" dated 24.09 To 29.10, 2016

"Water Gems" was an attempt to introduce kids to the software world. Ashwin Gunjan Asst. Engineer (Development and Design and Analysis) at PURANIK BRO., NAGPUR, discusses his experience with students and gives them a realistic glimpse of the software world. With 3.5 years of expertise in Environmental Design, Planning and Hydrology Obsolete Control. He also advised the students on the lessons he learned as a recent college graduate and how he overcame challenges. During the sessions, he discussed his work experiences and career philosophies.

The capability of the water network to adequately serve its customers must be evaluated whenever system growth is anticipated. With Open Flows Water GEMS, effectively identify potential problem areas, accommodate service area growth, and plan capital improvements.

**The detail schedule for the VAC is given below:**

| Water Gems Total Duration : 30 hrs |  |

## OBJECTIVE

Customized training program intended to foster a platform for students from All Engineering domain to understand emerging trends of machine learning in manufacturing sector.

## ABOUT INSTITUTE

Yeshwantrao Chavan College of Engineering (YCCE) is established in 1984 by Nagar Yuvak Shikshan Sanstha, Nagpur. It is affiliated to Rashtrasant Tukadoji Maharaj Nagpur University, Nagpur. YCCE is renowned for engineering education and research. For over 28 years, it has successfully nurtured young engineering professionals, becoming a sought after destination for students aspiring to higher technical education and placement in the competitive software and core industry.

The college is guided by Academic Advisory Board consisting of eminent academicians from prestigious technical institutes in India and USA. The college is having well qualified and experienced senior faculty members.

YCCE has become the first private engineering college to acquire "Autonomous Status" in Central India. The institute is implementing autonomy in progressive manner from academic session 2010-11. The students admitted to B.E. and M.Tech. Courses from academic session 2010-11 are under autonomy.

## About Mechanical Engineering Department

The Mechanical Engineering Department was established in the year 1984, With an aim to develop highly competent human resources in Mechanical Engineering profession, department is equipped with up-to-date infrastructure. The emphasis is on making aspirant familiar with theoretical and practical aspects of various fields of Mechanical Engineering.

Our promising thrust areas include CAD/CAM, Quality and Productivity Improvement, Industrial Fluidics, Automobile Engineering, Refrigeration and Air Conditioning & Heat Transfer applications.

To develop skills in manufacturing and fabrication, we have a well equipped Central Workshop. Students are trained on specialized facilities like NC/CNC Machines, Robot, Flexible Manufacturing Systems and advanced software like ORACLE, AUTODESK, Pro-E, ANSYS and CATIA.

## About Siemens Centre of Excellence

Department of Mechanical Engineering, YCCE has established Siemens centre of excellence under the proficient guidance and support from Siemens and AICTE .Education fraternity and Industries are drawn from the resources of Centre of Excellence and its industry and academic partners, and bring unique and relevant domain expertise that can provide ongoing linkage to the needs and trends of the Digital Manufacturing. Under the guidance and direction of the Siemens and AICTE, concepts and innovative ideas can be nurtured to exchange industry knowledge and developments and to provide practical and immediate prevalence to the various activities.

The vision of the Siemens Centre of Excellence, YCCE is to provide a responsive and innovative nucleus for growth and expansion of common platform between academia and industries. The training facilities, focusing the efforts of a highly skilled and experienced cadre of thought leaders who have the mission to energize the application of innovation as a competitive edge.

Yeshwantrao Chavan College of  
Engineering, Nagpur-441110**

## OBJECTIVE

Customized training program intended to foster a platform for students from All Engineering domain to understand emerging trends of machine learning in manufacturing sector.

## ABOUT INSTITUTE

Yeshwantrao Chavan College of Engineering (YCCE) is established in 1984 by Nagar Yuvak Shikshan Sanstha, Nagpur. It is affiliated to Rashtrasant Tukadoji Maharaj Nagpur University, Nagpur. YCCE is renowned for engineering education and research. For over 28 years, it has successfully nurtured young engineering professionals, becoming a sought after destination for students aspiring to higher technical education and placement in the competitive software and core industry.

The college is guided by Academic Advisory Board consisting of eminent academicians from prestigious technical institutes in India and USA. The college is having well qualified and experienced senior faculty members.

YCCE has become the first private engineering college to acquire "Autonomous Status" in Central India. The institute is implementing autonomy in progressive manner from academic session 2010-11. The students admitted to B.E. and M.Tech. Courses from academic session 2010-11 are under autonomy.

## About Mechanical Engineering Department

The Mechanical Engineering Department was established in the year 1984, With an aim to develop highly competent human resources in Mechanical Engineering profession, department is equipped with up-to-date infrastructure. The emphasis is on making aspirant familiar with theoretical and practical aspects of various fields of Mechanical Engineering.

Our promising thrust areas include CAD/CAM, Quality and Productivity Improvement, Industrial Fluidics, Automobile Engineering, Refrigeration and Air Conditioning & Heat Transfer applications.

To develop skills in manufacturing and fabrication, we have a well equipped Central Workshop. Students are trained on specialized facilities like NC/CNC Machines, Robot, Flexible Manufacturing Systems and advanced software like ORACLE, AUTODESK, Pro-E, ANSYS and CATIA.

## About Siemens Centre of Excellence

Department of Mechanical Engineering, YCCE has established Siemens centre of excellence under the proficient guidance and support from Siemens and AICTE .Education fraternity and Industries are drawn from the resources of Centre of Excellence and its industry and academic partners, and bring unique and relevant domain expertise that can provide ongoing linkage to the needs and trends of the Digital Manufacturing. Under the guidance and direction of the Siemens and AICTE, concepts and innovative ideas can be nurtured to exchange industry knowledge and developments and to provide practical and immediate prevalence to the various activities.

The vision of the Siemens Centre of Excellence, YCCE is to provide a responsive and innovative nucleus for growth and expansion of common platform between academia and industries. The training facilities, focusing the efforts of a highly skilled and experienced cadre of thought leaders who have the mission to energize the application of innovation as a competitive edge.

## COURSE OUTLINE

- Basics of machine learning
- Fundamentals of MATLAB Programming
- Fundamentals of Curve fitting
- Response Surface Methodology using MATLAB
- Artificial Neural Network
- Optimization using ANN
- Mathematical Modeling using ANN
- Modeling and Simulation using GA
- Case Studies on Modeling and Simulation

### NOTICE

**Date:-01-10-2016**

All the students of mechanical engineering are hereby informed that Department of Mechanical Engineering is organizing STTP on "Artificial Neural Network and Genetic Algorithm" during 14th October -18th October, 2016. This course is aimed to impart through knowledge and improve skillset of students.

Interested candidates can register on or before 10-10-2016. Interested students can contact Dr. J. P. Giri for further information.

### Report on

### Five Days Workshop on Substation Design

### (Value added Workshop)

Department of Electrical Engineering had organized five days workshop on substation design for final year students of Electrical Engineering department of YCCE, Nagpur from **20-24 February 2017**. During this workshop students were benefitted with the knowledge of substation design along with visits to various substations nearby YCCE campus. Faculties from Electrical Engineering Department delivered expert lectures during this workshop. Co-ordinator Prof. H.C. Mandhania facilitates the students regarding the substation visits. Dr. R.M.Moharil- Head Electrical Engineering department congratulated call the participants for successfully attending the workshop and proposed a vote of thanks for the same. Students were satisfied with the overall conduction of the program.

## Objectives of Programme

In the competitive market scenario the lack of practical knowledge of graduate engineers provides less opportunity for their employment. Substation Design is an essential and unique course dealing with practical aspects of substation design. This course will provide in-depth knowledge in the field

of sub-station design helping the students to increase their employability. Course includes drawing of single line diagram, sizing of equipment and rating, selection of equipment, type of protection systems, layouts, earthing design, wiring diagram, relay setting and coordination, fault level calculations, cable sizing, sizing of capacitor banks for automatic power factor improvement and its control circuits, preparing Bill of material and tender document.

In this course complete design of "Proposed 132kV YCCE Substation" is discussed in detail. This will help students who are interested in making future in electrical engineering.

Hands-on Workshop

On

**“VLSI Design using Cadence Tools”**

**8<sup>th</sup> -12<sup>th</sup> August 2016**

Department of Electronics Engineering of YCCE, Nagpur has successfully conducted a Hands-on Workshop on “VLSI Design using Cadence Tools” in association with Entuple Technologies Pvt. Ltd. Bangalore on 8<sup>th</sup> to 12<sup>th</sup> August 2016. Pre workshop was conducted by Mr. Pravin P. Zode on Tuesday, 8<sup>th</sup> August 2016 for creating awareness on Red Hat Linux Platform, Basic commands and Cadence VLSI design flow. Hands-on practice sessions were conducted by Mr. Srikar Talla, Chief Application Engineer of Entuple technologies on 9<sup>th</sup> to 11<sup>th</sup> August 2016. Post Workshop session on various types of analysis used in VLSI Circuits by Mr. Pravin P. Zode on 12<sup>th</sup> August 2016. M.Tech (Electronics / VLSI / Communications Engg.) students and Faculty members of Electronics department participated in the workshop.

### **Workshop objectives:**

The aim of this workshop is to provide hands - on experience on the state -of-the-art Cadence EDA tools for VLSI Design. The participants will have an exposure to the Circuit Design & Simulation, Layout, Physical Verification (DRC,LVS), and Extraction. The workshop includes Practice sessions on the Cadence design and simulation tools (Encounter, RTL Compiler, Virtuoso, Spectre, Assura and Incisive )

### **Workshop Topics**

- Introduction to Cadence and its various tools.
- Basics of mixed signal design using Cadence Virtuoso.
- Introduction to Physical Verification, DRC/LVS by Assura.
- Implementation of NC Launch and RTL Compiler for Digital Circuit using Verilog.
- Extraction of RC Components and Generation of GDSII file.

➤ **Day 3:**

- Introduction to ABPLC's programming software
- Downloading, Uploading & Monitoring of program

➤ **Day 4:**

- Practical on PLC with Programming instructions
- NO, NC
- Apply logic gate combinations to PLC control

➤ **Day 5:**

**Timer blocks**

- List the three basic types of PLC timers.
- Differentiate between an ON-delay and an OFF-delay instruction.
- Write a ladder logic program using timers.
- Describe the operating principle of retentive timers.

➤ **Day 6 :**

**Counter blocks**

- Define the two basic types of PLC counters
- Write a ladder logic program using CTU, CTD, and RES
- Design an up/down counter and Scaling for Analog device (as per availability of time)

**Impact:**

- Students learned new Technology.
- Project based learning Experience

### **Our City & Institute Location:**

Nagpur, popularly known as orange city is located at the centre of India and is well connected with all parts of country by rail, road and air. The college is located at about 10 Km from city on the Nagpur-Hingna road at Wanadongri. The institute is located very close to a large industrial estate.

### **About Institution:**

Yeshwantrao Chavan College of Engineering, (YCCE) Nagpur is a premiere technical institution established in 1984 and renowned for engineering education and research for over 33 years. It is the first private engineering institute to acquire "Autonomous Status" in Central India. It has successfully nurtured young engineering professional becoming a sought after destination for students aspiring to achieve higher technical education and placement in the competitive software and core industry. It has been accredited by NAAC with 'A' grade. The institute runs 09 full time under graduate and 10 full times post-graduate programmes. The institute is guided by Academic Advisory Board consisting of eminent academicians from prestigious technical institutes in India and abroad. The institute is having well qualified and experienced faculty members. Faculties from reputed institutes like IIT, NIT, IISC, and DAICT are invited regularly to deliver expert lectures under visiting professor scheme. YCCE is a partner in various industry academia programmes of companies.

### **About Department:**

The Department is accredited by National Board of Accreditation (NBA). The objective of the department is to provide high quality technical education to meet the needs of the Nation in the present competitive world. The department also provides training and research facilities at the Undergraduate, Post-graduate and Doctoral levels in various areas of Electronics and Telecommunication Engineering with broad emphasis on emerging areas in Communication Engineering, Antenna Design Image Processing and Embedded VLSI Design. It has well qualified and experienced faculty. The labs in the department are well equipped with latest hardware configuration and software facilities.

### **About STTP:**

The STTP is primarily intended for faculty members and UG/ PG Students from Engineering institutions, PhD and post graduate students from various institutes..

### **STTP Objective:**

The objective of the STTP is to groom the participants for handling Microwave design tools and research problems in the concern area. In this direction this is a unique opportunity for the fraternity working on Antenna Design to gain knowledge and hands on pertaining to the latest developments in these areas.

### **Course Contents:**

- Basics of Antenna
- Advancement in Antenna
- Reconfigurable Antenna
- Recent Trends in Antenna
- MIMO Antenna
- Antenna Design and analysis

### **Expert Speakers:**

- Dr. P.L. Zade
- Dr. M. S. Narlawar
- Prof. S.S.Khade

### **Eligibility:**

Faculty from AICTE recognized Engineering colleges, person from industries and other government organizations belonging to related stream.

### **How to Apply:**

Interested candidates should either send a DD in favour of **Principal, Yeshwantrao Chavan College of Engineering**, payable at Nagpur or deposit cash with concern person.

Kindly send the scanned copy of registration form and DD to the mail id ([sac\\_mob@rediffmail.com](mailto:sac_mob@rediffmail.com)) on or before 20<sup>th</sup> September 2017.

### **Registration Fees:**

1. For Faculty members 800/-
2. UG/PG Students 600/-
3. 50% discount for YCCE students

**Event Name:** "R-Programming"

**Organizing Body:** CTSC / ACM

**Coordinator:** Er. P. A. Deshkar

**Topics covered:** Self-learning of R, The screening task and getting qualified, Linear Discriminant Analysis, Decision Tree, Hierarchical Clustering, K Means Clustering, Random Forest

**Date:** 15thFebruary to 19thFebruary

**Number of participants:** 50

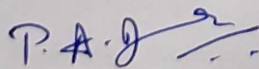

**Resource Person and Affiliation:** Er. P. A. Deshkar, Assist Prof, CT Dept YCCE.

**Summary:**

Department of Computer Technology had organized fivedays student development program on "R-Programming". This course had provided students knowledge about how to program in R and how to use R for effective data analysis. How to install and configure software necessary for a statistical programming environment and describe generic programming language concepts as they were implemented in a high-level statistical language. The course covers topics such as Self-learning of R, The screening task and getting qualified, Linear Discriminant Analysis, Decision Tree, Hierarchical Clustering, K Means Clustering, Random Forest etc. Workshop gives student hands on experience on R programming.
