#### 4. Adjustments to License Fee

- 4.1 The License Fee is based on the inclusion of the expected number of titles in the respective eBook Packages. If the total sum of the eBooks in the eBook Packages acquired under this license contains less than 97% of the estimated titles of the eBook Packages in total, Springer may offer Licensee either (1) a discount on any future acquisition of an eBook package or any other online product in the amount according to the shortfall, or (2) access to an additional online product not presently licensed to Licensee.

## Specific Provisions Springer Book Archives

### 1. Duration of Access

Upon issuance of invoice and subject to Licensee's compliance with this License Agreement, Licensee shall be entitled to continuous access to the Springer Book Archives. From January 1<sup>st</sup> 2018, Licensee shall pay an annual hosting fee in the amount of € 500.- for access through Springer's Websites, which will be waived during those years that Licensee subscribes to or acquires any additional Content.

### 2. Springer Book Archives

2.1 Licensee shall have access to the following number of Titles:

Subject Collection (English)	Number of Titles*
Engineering	4,003

\* The title lists can be downloaded at <http://www.springer.com/MARC>.

2.2 The License Fee is based on the inclusion of the number of Titles in the respective Springer Book Archives packages. If the total sum of the eBooks in the Springer Book Archives acquired under this license contains less than 97% of the number of Titles of the Springer Book Archives in total, Springer may offer Licensee either (1) a discount on any future acquisition of any Springer Book Archives package or any other online product in the amount according to the shortfall, or (2) access to an additional online product not presently licensed to Licensee.

2.3 If the quantity of titles at any given time subsequent to the purchase exceeds the number of Titles included at the time of purchase by more than 8% due to but not limited to acquisitions and/or digitization of additional imprints from the Springer group companies or from any third party, Licensee shall only be entitled to have access to these additional titles against payment of a license fee (the "Supplement Fee") which shall be proportionate to the increase in Titles. The same shall apply if the quantity of titles at any given time exceeds the number of Titles on which the Supplement Fee is based by more than 8%.

2.4 Springer makes all reasonable effort to add all books of the Title List to the Springer Book Archives but cannot guarantee access to all Titles or any specific Title as the Title List may be subject to change.

## Terms and Conditions for Online Products of Springer

These **Terms and Conditions** are part of and incorporated into each license agreement for online products (together the "**License Agreement**") licensed by **Springer Customer Service Center GmbH**, Haberstraße 7, 69126 Heidelberg, Germany ("**Springer**") to Licensee and if identified in the License Agreement its Participating Libraries or Consortia Members (collectively "**Licensee**").

"**Content**" means the online products identified in the License Agreement which may include, but shall not be limited to, eBooks, Bookseries, eReference Works, SpringerReference, Journals, Springer Journal Archives, Springer Bookseries Archives, Springer Book Archives, SpringerProtocols, SpringerMaterials and zbMATH published on various websites ("**Springer's Websites**"). "**Authorized Users**" means Licensee's full time and part time faculty members, students and staff members, researchers, contractors and authorized walk-in users.

### 1. Grant and Scope of License

1.1 Subject to Licensee's compliance with the License Agreement, and except as otherwise stated therein, Springer hereby grants Licensee a non-exclusive, revocable and non-transferrable license to access the Content for the duration set forth in the License Agreement.

1.2 As permitted by fair use rules or other limitations to copyright provided for by applicable national laws and regulations, Authorized Users may solely for educational, personal, scientific, or research purposes:

- access (including remote access with the exception of walk-in-users), browse, view, collate, display, search and retrieve the Content,
- download, store on a hard drive or removable media drive, print and copy in paper and digital form single articles, chapters or other individual items of the Content,
- use single articles, chapters or other individual items of the Content for the preparation of academic and other educational course materials including print-outs, copies in print and digital format with all rights notices duly presented.

1.3 As permitted by fair use rules or other limitations to copyright provided for by applicable national laws and regulations, Licensee may:

- make one copy of the Content both in electronic and print format for backup purposes only, unless otherwise stated in the License Agreement,
- incorporate links on Licensee's intranet and internet websites to the Content in full text format on Springer's Websites,

### 2. Prohibited Uses

Licensee and its Authorized Users shall not:

- remove, obscure or alter any copyright or other notices, trademarks, logos, service marks or any other proprietary rights appearing in or on the Content,
- update, change, revise, adapt, modify, translate, transform or create any derivative work of the Content,

- except as permitted by Section 1, re-distribute, reproduce, or transmit the Content by any means including electronic (e. g., via e-mail) nor post it on their personal or public websites or on public networks,
- systematically download any Content, use routines designed to continuously and automatically search and index the Content (full text and meta data), such as web-crawling or spider programs or engage in any activity likely to burden Springer's Websites, except as expressly allowed in the License Agreement,
- directly or indirectly use or assist any third party to use the Content for any commercial or monetary purposes including without limitation any sale, resale, loan, transfer or upload of the Content to a commercial entity's internet website, or otherwise charge a fee for access ("Commercial Use"), provided however, that recovery of direct costs by Licensee from Authorized Users, and use of the Content in the course of research funded by a commercial organization shall not violate this sub-section.

### 3. Rights and Obligations of Springer

3.1 Springer may control access to the Content through Internet Protocol ("IP") authentication, Shibboleth or Athens or another identification method agreed upon by Licensee and Springer.

3.2 Springer reserves the right to monitor, investigate and analyze all available data including logfiles to detect misuse of the Content by Licensee and Authorized Users. Springer will inform Licensee in any case of misuse.

3.3 Where feasible, Springer shall collect data on usage of the Content and process these according to the COUNTER Code of Practice and according to applicable privacy and data protection laws (the "Usage Data"). The Usage Data will be made available for download by Licensee through a secure website.

3.4 Springer shall use reasonable efforts to provide online availability of Springer's Websites and the Content, subject to periodic unavailability due to server and software maintenance and services outside of Springer's control, and

to restore access to the Content as promptly as possible in the event of an interruption or suspension of access to Springer's Websites.

- 3.5 Springer cooperates with a number of digital preservation services provided by e.g. CLOCKSS, LOCKSS and Portico for the preservation of certain online products of Springer. It is in Springer's sole discretion to enter into or to continue such agreements.
- 3.6 Springer reserves the right and has sole discretion to withdraw any part of the Content to which it no longer retains the right to publish or it has reasonable grounds to believe is unlawful, harmful, false or infringing.
- 3.7 Springer retains all right, title, and interest in and to the Content, and any trademarks, patent rights, copyrights, and rights to any ideas and designs relating to the Content, Springer's Websites, and all software used to access the same.

#### 4. Rights and Obligations of Licensee

- 4.1 Licensee shall use best efforts to ensure that access and use of the Content is limited to Authorized Users and that all Authorized Users are notified of and comply with the usage restrictions set forth in these Terms and Conditions.
- 4.2 Licensee shall promptly inform Springer of any breaches in security in Licensee's network or its accounts.
- 4.3 If Licensee becomes aware of any unauthorized use of the Content by any Authorized User, Licensee shall immediately inform Springer and shall take appropriate steps to ensure that such activity ceases and to prevent its recurrence. If possible, Licensee shall terminate access by such Authorized User immediately upon receipt of such information, and, depending on the nature of such misuse, and at Springer's sole discretion, Springer may take any action against such Authorized User. Licensee guarantees to terminate the access of an Authorized User if he is no longer an Authorized User.

#### 5. License Fee

- 5.1 Licensee shall pay the fees set forth in the License Agreement (the "**License Fees**"). Late payments shall be subject to interest charges at the current applicable interest rates. All amounts payable by Licensee shall be exclusive of any sales, use, withholding, value added or similar taxes, government fees or levies or other assessments which shall be the sole responsibility of Licensee.
- 5.2 The License Fees, or any portion thereof, may be invoiced by another Springer company, other than the contract party, that is part of the Springer Science + Business Media Group or by an agent designated either by Springer or by Licensee or by any Participating Library if applicable.

#### 6. Termination

- 6.1 In the event Licensee fails to pay the License Fee for an online product and fails to cure such non-payment within 30 days following notice from Springer of the non-payment, Springer may immediately terminate the License Agreement for the respective online product without further notice.
- 6.2 Either party may terminate the License Agreement without further notice if the other party materially breaches the License Agreement provided that (1) the non-breaching party has notified and specified the breach in writing to the other party and stated its intention to terminate, and provided that (2) the breach is not cured within 30 days.
- 6.3 In the event of termination or expiration of the License Agreement, Licensee shall discontinue accessing the respective Content via Springer's Websites and the license grant shall terminate with regard to the Content, unless otherwise stated in the License Agreement. Section 2 and all indemnification and confidentiality obligations herein or in the License Agreement shall survive such termination or expiration.

#### 7. Confidentiality

- 7.1 The License Agreement including these Terms and Conditions, (collectively, "**Confidential Information**") shall be kept and remain strictly confidential and shall not be disclosed to any third party except to (a) officers, accountants, attorneys, insurers, or others associated with the Parties hereto who have a need to know in order to execute this License Agreement, or (b) as required by law, pursuant to a properly issued subpoena, any order of any court, or other authority or governmental agency with the authority to request information regarding the License Agreement. If Licensee is requested to disclose any Confidential Information, Licensee shall immediately notify Springer of any such request, and shall take reasonable measures such as a protective order to ensure that the recipient of the Confidential Information keeps it confidential.
- 7.2 This obligation shall not apply to any information which at the time of disclosure is in the public domain or is made available at any time by an independent third party which has not obtained it directly or indirectly in breach of any confidentiality agreement with the party whose information was so disclosed.

#### 8. Representations, Warranties, Indemnification

- 8.1 Springer represents and warrants that, to its knowledge (i) it has sufficient copyrights, ownership rights and/or utilization rights in and to the Content, and that (ii) use of the Content by Licensee in accordance with these Terms and Conditions shall not infringe any copyright, trademark, patent, or rights of privacy or publicity of any third party.
- 8.2 The parties shall only be liable for liquidated damages for any kind of breach and irrespective of its legal cause (e.g. defaults, quality defects and defects to title) (i) in case of intentional

wrongdoing and gross negligence, (ii) for personal injuries, and (iii) in case of break of a guarantee.

- 8.3 Springer shall not be liable for any damages caused by the use of the Content by Licensee or any Authorized Users for any purposes not granted under this Agreement.
- 8.4 Springer shall defend and hold Licensee harmless from and against any justified claims asserted by third parties based on an infringement of any copyrights or intellectual property rights and indemnify Licensee against any financial obligations arising thereof (including costs of legal proceedings) that Licensee has to bear under a legally binding judgment or under a settlement Springer has consented to in writing provided that Licensee (i) has promptly notified Springer of the asserted claim in writing and (ii) has assigned to Springer, in a timely manner, full control and power over the legal defense. Upon request of Springer, Licensee shall provide Springer with reasonable support for the legal defense of such claims.
- 8.5 Except for the express warranties and indemnities stated herein and to the extent permitted by applicable law, Springer provides the content "as is" and makes no other representation or warranty. Springer expressly disclaims any liability for any claim arising from or out of the content, including but not limited to any errors, inaccuracies, omissions, or defects contained therein, and any implied or express warranty as to merchantability or fitness for a particular purpose.
- 8.6 Licensee represents and warrants that (i) it has the requisite corporate authority to enter into this Agreement, that (ii) if applicable, it is authorized to act on behalf of the Participating Libraries or Consortia Members, and that (iii) it will use its best efforts to maintain the security of its network, authorized access through its Authorized Users and the integrity of the Content.
- 8.7 Licensee shall indemnify, defend, and hold harmless Springer and its subsidiaries, affiliates, divisions, successors and assigns (the "**Springer Affiliates**") from and against any and all claims, demands, obligations, costs, losses and liabilities, including reasonable attorney fees incurred by Springer and/or Springer Affiliates which arise out of an alleged violation of its representations and warranties set forth herein.

## 9. General

- 9.1 Springer may assign its rights or delegate its obligations, or any part thereof under the License Agreement without the prior consent of Licensee. Licensee may not assign, its rights or delegate its obligations or any part thereof under the License Agreement without the prior written consent of Springer. Any attempt by Licensee to assign or delegate any rights or obligations set forth in the License Agreement without Springer's prior written consent shall be null and void.
- 9.2 Either party's delay or failure to perform any term or condition of the License Agreement as a result of conditions beyond its

control such as, but not limited to, war, strikes, fires, floods, governmental restrictions, power failures, or damage or destruction of any network facilities or servers, shall not be deemed a breach of the License Agreement.

- 9.3 If any covenant or other provision of the License Agreement is invalid, illegal or incapable of being enforced, by reason of any rule of law or public policy, all other covenants and provisions shall nevertheless remain in full force and effect.
- 9.4 Any modification of any provision of the License Agreement shall be in writing. Any description sheets or other memoranda concerning the License Agreement shall in no way supersede or be controlling over the terms of the License Agreement.
- 9.5 The License Agreement and the rights and obligations of the parties hereto shall be construed, interpreted and determined in accordance with the laws of Germany without reference to the stipulations of the CISG (United Nations Convention on Contracts for the International Sale of Goods) or to Germany's choice-of-law principles.
- 9.6 The parties acknowledge and agree that any controversies arising out of the License Agreement shall be decided exclusively by the courts of or having jurisdiction for Heidelberg, Germany, as far as legally permissible.
- 9.7 All notices given pursuant to the License Agreement shall be in writing and shall be deemed given (i) if by hand delivery, upon receipt thereof; or (ii) if by facsimile, upon receipt thereof provided a confirmation is sent by mail or hand delivery. Notice to Springer shall be to the Licensing Manager. Notice to Licensee shall be to the address set forth in the License Agreement.
- 9.8 In case the License Agreement is translated into another language, the English version shall be binding.

**Abstract:** With the development of science and technology, especially the application of big data technology, the role of computer networks has become more and more significant. Computer network has a profound impact on people's life and work, and has even become a part of life and work. However, computer network technology has also exposed some problems while providing convenience to people's lives. For example, the resulting information security issues pose a threat to people's personal privacy, corporate security, national security, etc., thereby affecting the sustainable development of computer network technology. Based on this, we must strengthen the research on computer network security. In particular, it is necessary to strengthen the research on the phenomenon of computer network information leakage and its causes, and strengthen the computer network security management. At the same time, we should also take necessary preventive measures from both technical and management aspects to ensure the safety of computer network information and reduce computer network threats. In view of this, this article will analyze and explore the current factors affecting computer network security on the basis of related concepts of computer network information security. The author analyzes how we should strengthen defenses from the perspective of technology and management to ensure the security

by external intrusions and attacks. This is conducive to the safe and stable operation of the computer network system and can be used normally.

## II. The State of Computer Network Security

### A. Incomplete Network Security Management System

Regarding the prevention and control of computer network security management, the imperfection of related systems is not enough to cause managers to pay attention to computer network information and the security management of the entire system. If the managers have insufficient security awareness, coupled with imperfect management systems and unclear job responsibilities, they will not be able to play the role of network security management. This will cause the computer network to fall into threats such as computer viruses and hackers, thereby causing harm to computer network information and the entire network system.

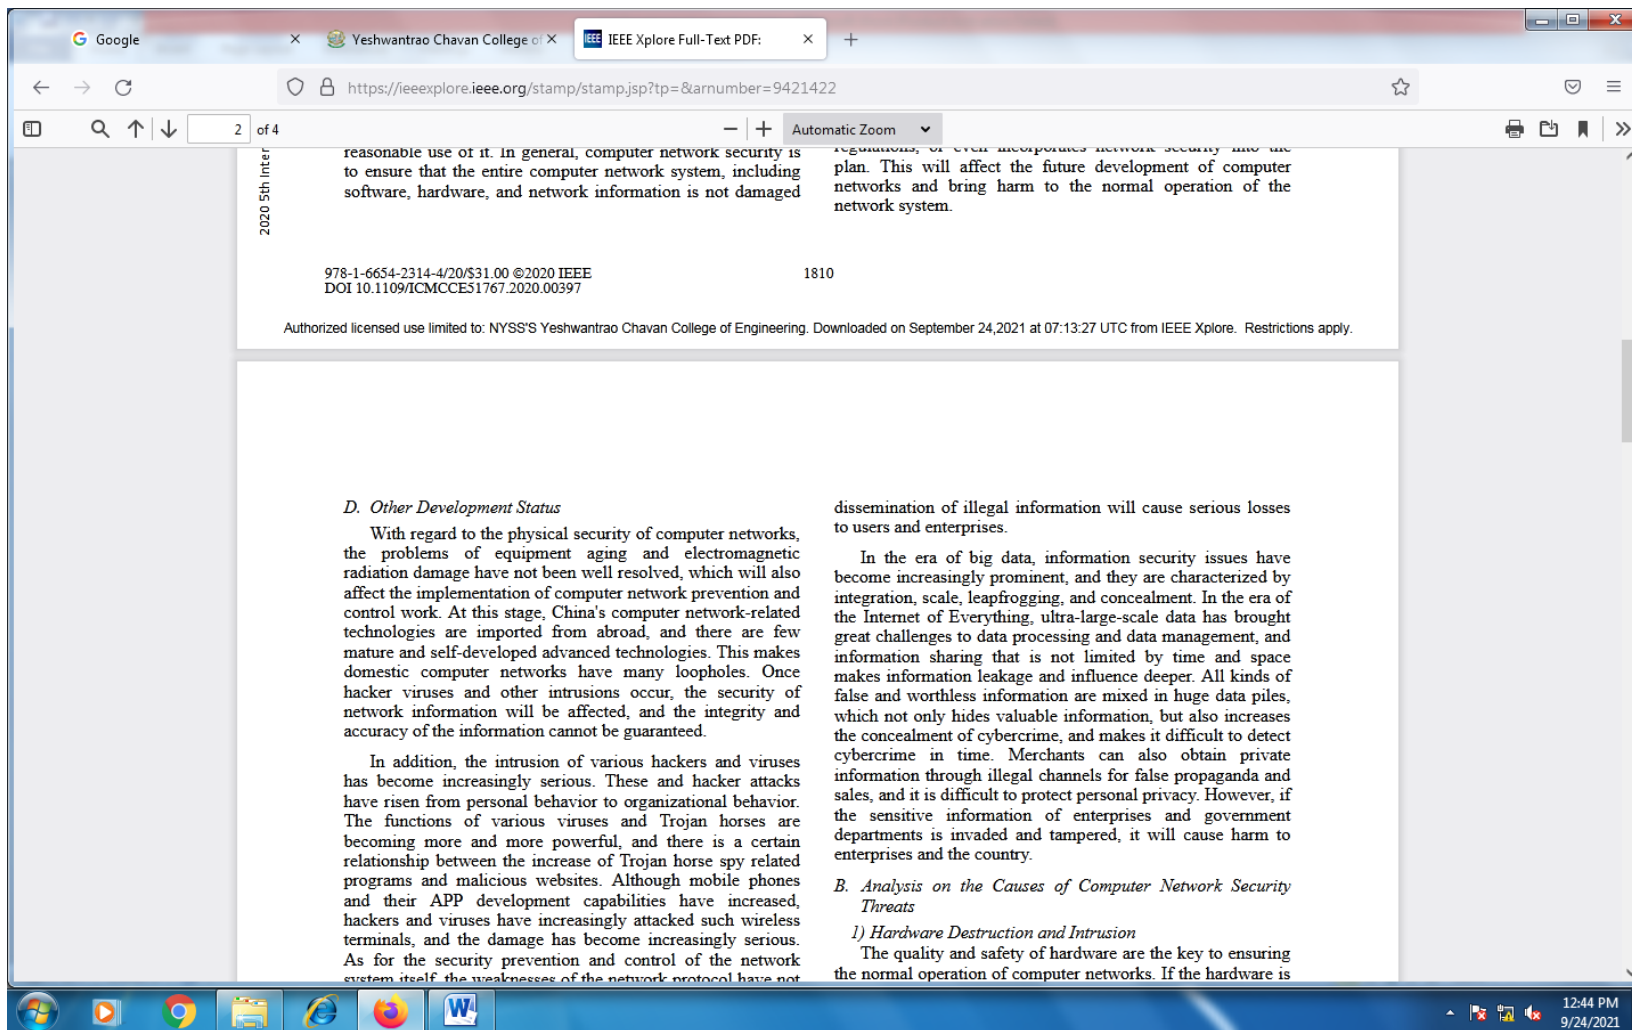

### B. Inadequate Safety Management of Computer Network Equipment

The security of computer network equipment and its

system can automatically identify the security problems in the network and alert the suspected intrusion through behavior analysis and prevent the user's attention. Furthermore, intelligently analyze security issues and timely understand the vulnerable modules of the system, and then find out the vulnerabilities to carry out targeted repairs. This is of great help for saving manpower and material resources, improving the efficiency and effectiveness of information security restoration, and reducing the losses of enterprises and individuals.

# Heat Waves

## Introduction

This chapter discusses the effect of heat waves on the energy value chain and presents lessons from previous events. A heat wave, also known as a heat storm, is an extreme weather phenomenon characterized as a prolonged period of higher-than-normal ambient temperatures that can last from a few days to a few weeks. Because heat waves are not as visible as other forms of severe weather, like high winds and ice, their effects have not been studied as much as other forms of extreme weather. Heat waves and droughts (prolonged periods of abnormally low rainfall), are separate extreme weather phenomena that can occur both independent and concurrently of

**Abstract.** Prediction accuracy is the most common metric used to evaluate the performance of traditional recommender systems. However, this might not be applicable with Social Network-based Recommender Systems that uses social connections in creating predictions and suggestions. Other important features should be taken into account in implementing and evaluating them. This paper evaluates and assesses several social network-based recommender systems, in terms of robustness, trust, serendipity, diversity, privacy preservation and scalability. From observation and analysis, we proposed suggestions that can improve the performance of various recommender systems, respectively.

**Keywords:** social network, recommender systems.

### 1 Introduction

The rapid increase in the amount of information on the Web brings difficulty for Internet users to obtain desired information. This problem becomes even worse if users do not utilize appropriate search tools. In the past decade, different Recommender Systems (RSs) are proposed to solve this problem. RSs in highly rated sites such as Amazon, Netflix, TripAdvisor, Yahoo and YouTube have played an important role to

# National Digital Library (NDL)

The screenshot shows the National Digital Library of India (NDLI) website. The browser window has three tabs: Google, Yeshwantrao Chavan College of..., and National Digital Library of India. The address bar shows the URL <https://ndl.iitkgp.ac.in>. The website header includes a navigation menu with 'Browse' and 'Search', and user options for 'NDLI Club', 'Language', and 'YCCCE, Nagpur'. The main banner features the NDL logo, the text 'National Digital Library of India', and the slogan 'One Library All of India'. It is sponsored by the Ministry of Education, Government of India, and developed by the Indian Institute of Technology Kharagpur. A search bar indicates 'Search over 75,675,398 resources' with a language dropdown set to 'English'. Below the banner are three main sections: 'STUDY AT HOME' with buttons for School, CBSE Examinations Preparatory (NEW), Engineering, Science, Humanities, Literature, and Law & Management; 'COVID-19 RESEARCH REPOSITORY' with buttons for Scholarly Publications, Data Sets, Documents & Videos, Journals & Conferences, Ideas & Funding, and Challenges & Startup; and 'FEATURED COLLECTIONS' with buttons for Birth Centenary of Satyajit Ray, On this Day, Person of the Week: Michael Faraday, Topic of the Week: International Day of Peace, and Talks & Webinars. The Windows taskbar at the bottom shows the time as 1:16 PM on 9/24/2021.
